

Pagodas

Our 6m by 6m pagodas are a versatile, open space that are ideal for trade stands, smaller parties and additional space alongside another marquee for bars, catering, etc. They are a modern, clear span option that connects easily to our clear span marquees and pole marquees to provide a generous, open space that can benefit many different events.

The pagodas can be lined with ivory pleated linings to give a traditional marquee finish. Our carpeting, furniture and decorative pieces all work well within this space as well.
