

## Traditional Pole Marquee

The traditional pole marquee with its elegant lines it is still a popular choice for weddings and events looking for the country look. Internally the pole marquee is visually dramatic with its high lofty roof space giving plenty of scope for you to add the personal touch.

The internal poles create the main structure supporting the PVC roofs and walls which are held taut with side poles and guy ropes. The size of the marquee can be altered by adding more middle sections including a supporting centre pole to extend the overall length.

Our pole marquee is 40ft wide and can be extended to 120ft in length.
